

XeloQ Communications - Reseller Application Demo (sample screens)

Resellers that sign up at XeloQ Communications will get an exact **similar** system as shown below as well as a USER login domain / screen where your users will login. That will also be explained at the end of this document.

But first we show you the Web Based Control panel where you manage your users, Tariff tables (and control your own margins) and change Templates like Registration email and online Invoice layout.

After logging in at <http://callingstats.com> you will see the next screen.

Main Home page:

In the graphs you can see weekly statistics like Paid & called, profit, amount of calls and total number of minutes. All this is shown **per day** for a total of the last week.

Explore the Menu on the left hand site showing Customers, Payments of your customers, the Tariff tables which you can create yourself on the fly, the made calls by any or all of your customers and more.

Pressing Customers will show you a quick overview of your customers, their email address, current balance and if they are enabled / disabled.

Pressing any of the customers will bring you to the next screen.

Detailed view of a Customer:

The screenshot shows a web browser window titled "Customer XeloQ reseller test customer (do NOT delete) - Windows Internet Explorer". The address bar shows the URL "http://callingstats.com/reseller.php?action=customer&customerid=4214". The browser's address bar and search bar are visible. The page header includes the GNC billing system logo and the date "Wed, May 27, 2009, 10:45:31". The breadcrumb trail indicates the user is in the "Customers" section. The main content area displays the customer details for "XeloQ reseller test customer (do NOT delete)".

Customer: XeloQ reseller test customer (do NOT delete)

Customer information

Name: XeloQ reseller test customer (do NOT delete)
E-Mail: info@xeloq.com
Registration date: 2006-11-20 23:17:52
Contact phone: 31238901271
Additional information: Customer used for demonstration (do NOT delete).
Default reseller pricetable for Volume based subresellers is named: Default RESELLER
Wholesale prices - 1/1 billing
Country: Netherlands
Time zone: (GMT) Greenwich Mean Time, London, Lisbon
Disabled: No
Warning threshold: 300.0000
Activated: Yes
Tariff: Default RESELLER Wholesale prices - 1/1 billing - 27 aug 2008
Credit amount: 11.5821
Credit amount limit: 0.0000
Credit account information: beltegoed max
Credit account company name: taber

Actions

- Edit customer
- Add payment
- Calls history
- Payments list
- Send info to customer
- Send info to reseller
- Recurring fees
- Delete customer

Calling cards

- Add
- Manage
- Download
- Manage DID's ACL

All the things belonging to this customer can be viewed and edited here as soon as you press 'Edit Customer'.

The right side action menus are pretty self explaining.

When you added the calling card option (in "Edit Customer") you will also see that shown up here.

'Edit Customer' screen:

When pressing 'Add Customer' you can manually add a customer.

This is handy when you as reseller are doing the installation at your customer's site so you can prepare the SIP account and the hardware (ATA, IP Phone, VoIP gateway or IP PBX with this SIP account).

Assigning extra features like Calling Cards can be done directly from this screen too.

Obviously, you can 'Edit Customer' later when you want to change any of the first time settings.

Sub resellers:

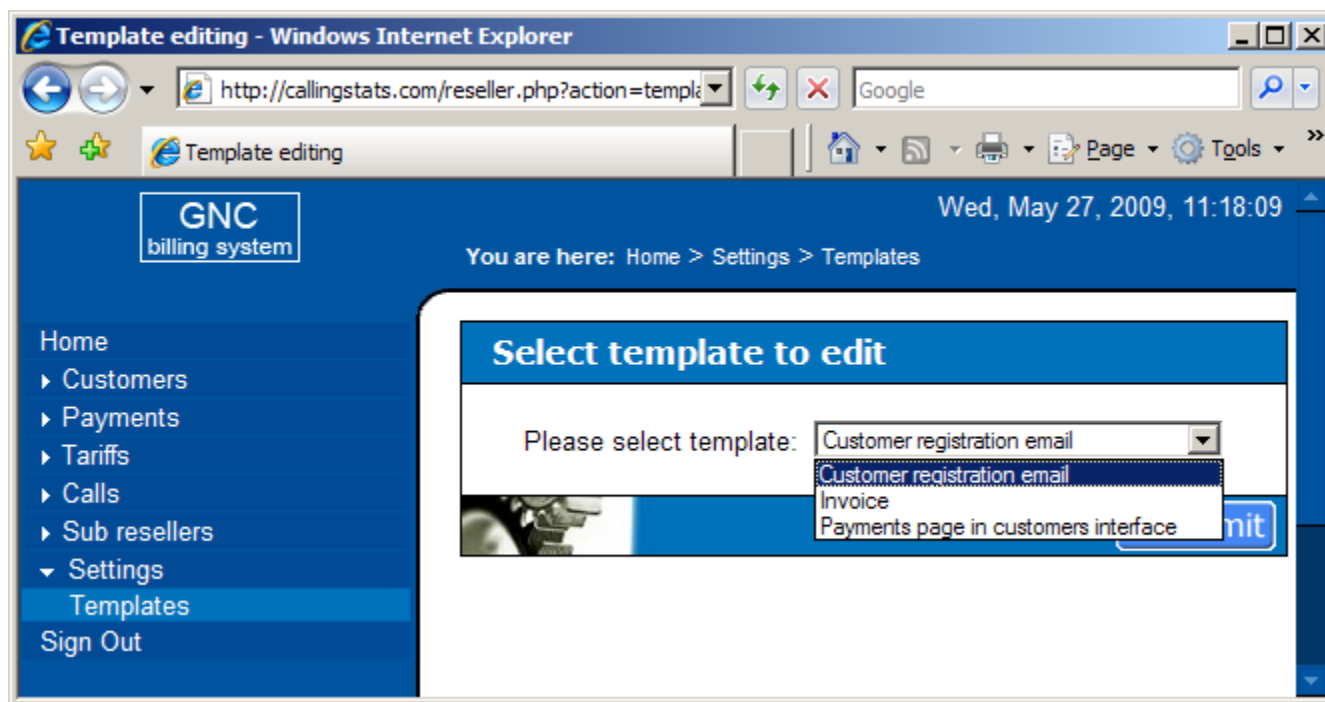

Whenever you have SUB resellers setup (a reseller that sits 'under' you in your system) you will see them here.

You control the SUB reseller (add credit to them) and can create different Tariff tables for them which will be assigned to them.

You as reseller will make money on ALL SUB resellers and their customer they have in their system.

A SUBreseller system is similar to the system shown here but the only difference is that YOU assign money + the correct Tariff table to them.

Settings / Templates:

The Templates screens allows you to create / change the way the Registration email looks (this is sent to your customers AFTER they sign up), the **online invoice** and how the **Payments page** looks in the accounts.

All these Templates can be completely setup / changed in the way YOU want.

- You can create the mails to be sent to customers (after they sign up) exactly how **you** want it and from that mail redirect users to your companies website for the Support screens or your online shop.
- The online invoice can even hold your logo and with online invoices you will never have to send a 'paper' invoice anymore. As soon as the payment has been topped up IN the account, the invoice is available instantly.
- The Payment screen allows you to put out information there to instruct your customers to pay you quickly! PayPal buttons, your bank information or any other link to your website can be placed here.

Some examples:

Payments Page (in My Account):

Next is to show you where **your users** will login to the system with the domain you will order from us.

USER Login screens:

For this DEMO reseller, we have setup a domain called <http://my.ipcall2.com>

A similar domain is what you will get. Besides the **my.domain.com** you will also will also get **sip.domain.com** to be configured in the SIP devices (IP Phone, ATA, SoftPhone, IP PBX...)

The screenshot shows a Windows Internet Explorer browser window. The address bar displays <http://my.ipcall2.com/>. The page content features a large, stylized 'DEMO' text with a 3D effect, overlaid with a diamond-shaped graphic. Below this, the text 'XeloQ Communications Reseller Demo' is prominently displayed. A 'MEMBERS LOGIN' section contains two input fields for 'Account name' and 'Password', followed by a 'Submit' button. Below the login fields are links for '[Registration](#)' and '[Forgot your password?](#)'. At the bottom of the page, a copyright notice states: 'Copyright© 2002 -2009 - Internetvoice is a registered trademark from XeloQ Communications Ltd. VoIP services powered by [XeloQ Communications](#) Navigation and layout optimized for Microsoft Internet Explorer 5.0 or higher'.
